Lab 03

HMS

HMS (Hospitals Management System):

➢ Continue with our previously created module "hms"

➢ Create two new user groups (user , manager)

➢ The user group has the following access rights:

  ➢ Can create/read/update his own patients records

  ➢ Can read only departments

  ➢ Can read only doctors

  ➢ Can't view doctor fields in patients' form view

  ➢ Can't view doctors' menu item

HMS

HMS (Hospitals Management System):

➢ The Manager group has the following access rights:

  ➢ Can create/read/update/delete all patients records

  ➢ Can create/read/update/delete departments

  ➢ Can create/read/update/delete doctors

  ➢ Can view doctor fields in patients form view

  ➢ Can view doctors menu item

HMS

HMS (Hospitals Management System):

➤ Create a patients report like the following design

Patient Status Report

Name: Patient's name
Age: 25
Department: department name
Doctors: doctor1, doctor2, doctor2

Birth date: 12/10/1995
PCR: 2.5
Blood Type: A+
Email: patient@test.com
